2. [redacted] In response to a request from Mr. William A. Ulman, who indicated that he is heading up a Task Force on Latin America for the House Republican Policy Committee concerning historic background of the present Panama situation, I advised that our people are not normally available for such consultation and that the Agency very seldom prepares such unclassified background reports. Mr. Ulman thanked me and indicated that he would look to the Panama Desk, Department of State, for the additional information he desires. 25X1
